PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of professional experience designing, developing, and deploying scalable web applications using Laravel, PHP, React.js, JavaScript, and MySQL. Skilled in building RESTful APIs, integrating frontend and backend systems, database design and optimization, and responsive web development. Experienced in Linux server environments, Docker, cloud deployment, and application performance optimization. Proven ability to deliver production-ready applications with a focus on clean, maintainable code, reliability, and user experience.

WORK EXPERIENCE

Smitiv Mobile Technologies Full-Time

Aug 2023 to Jun 2026 · 3+ years

Full Stack Developer

- Developed and maintained scalable backend systems using Laravel, enhancing authentication modules and RESTful API endpoints.
- Delivered 5+ production-grade applications accessed by over 1,000 active users, ensuring high availability and performance.
- Optimized SQL queries and database interactions to improve response times by 25%, supporting scalable user growth.
- Managed live deployments on Linux servers, reducing downtime by 30% through streamlined deployment processes.
- Integrated React frontend with backend APIs, improving UI responsiveness and user engagement metrics.
- Collaborated across teams to ensure clean, maintainable code and adherence to best practices.

KEY PROJECTS

UR Cab – Ride Booking Platform: Developed booking, authentication, ride management, and REST API features using React.js, Node.js and MySQL.

Atlantic – Web Application: Built scalable frontend and backend modules using Laravel, MySQL.

Interior Design Web Platform: Developed responsive web features, API integrations, database modules, and dynamic content using Core PHP, Node.js and MySQL.

ATA Travel – Travel Management Platform: Developed and maintained web application features for travel management, integrating frontend and backend systems using Laravel, React.js, MySQL, and REST APIs.

EDUCATION

Providence College for Women 2020 – 2023

Bachelor of Computer Applications (BCA)
